

Unlock your Evolution

Evolve the way you work with Smart Work Gateway

Smart Work Gateway opens up limitless possibilities to enhance the way you work now.

Technologies that help you grow over the long term.

Intelligent Workflow

- Streamline existing document workflow with integration of various cloud services and internal processes to achieve an optimum level of scalability
- Use one touch workflows to add needed simplicity

Cloud Integration

- Gain the freedom to work where and how you want to—with direct connectivity to Google Drive, OneDrive, DropBox, SharePoint and other Cloud Services
- Scan or print directly to or from the cloud, easily share documents without the hassle of multiple steps. It's all possible, right from the device

Simplified Management

- Single point of management for all connected devices helps you make informed decisions quickly
- Real time analysis based on usage helps in predicting possible faults before they even occur
- Optimise costs with better visibility of all your assets

360° Protection

- Device based encryption and logs maintain required confidentiality
- Build data integrity by setting document access rights for both internal and external users
- Ensure information continuity with the ability to create information backup plans for all scanned documents

Agile Mobility

- The inbuilt NFC feature allows you to connect your smartphone to directly print or scan from the device by using the Print Utility mobile app
- Use your smartphone as a Portable UI panel (mobile app) to simply set and manage copy, scan and fax jobs on the phone itself, saving you time by reducing bottlenecks at the device
